IMMUNIZATION REPORTING

Annual immunization assessment reporting for the 2023- 2024 school year is now open! The deadline is December 1, 2023 and individuals are encouraged to report early. [California Health and Safety Code Section 120375 and California Code of Regulations Section 6075](#) require all child care facilities and schools (including home schools) to review student immunization records and report annually on the immunization status of their students. This year, facilities and schools will need to report the immunization status of children in:

- Pre-kindergarten/child care (ages 2-5 years)
- TK/K (not 1st grade)
- 7th grade (not 8th grade).

The reporting website has moved to the [CAIR Hub](#). You will need to:

1. register for a CAIR Hub account (SCRL users already have one)
2. set up a user profile
3. log in to CAIR Hub to report using the Immunization Reporting application on your dashboard.

CDPH website offers [free online training](#) for schools TK–12th grades. These interactive modules are designed to support your efforts in implementing school immunization requirements.

Sacramento County Public Health Staff is available to help schools and child care centers with reporting. Please email immunize@saccounty.gov or call Sacramento County Immunization Assistance Program at (916) 875- 7468.

POLIO

Only trivalent OPV (tOPV) counts toward the U.S. vaccination requirements. Doses of OPV administered before April 1, 2016, should be counted (unless specifically noted as administered during a campaign). Doses of OPV administered on or after April 1, 2016, should not be counted. Read more about this on the ACIP schedule under the [polio notes](#).

[California Immunization Requirements for K- 12th Grade](#) and [Immunization Requirements for Pre-Kindergarten](#) are tools to help families understand CA school requirements. California- licensed MDs and DOs can register to issue and manage medical exemptions on the [CAIR Medical Exemption web site](#).

SCHOOL IMMUNIZATION REQUIREMENTS AND MEDICAL EXEMPTIONS

[California Immunization Requirements for K- 12th Grade](#), [Immunization Requirements for Pre-Kindergarten](#), and the [California Immunization Handbook](#) are tools to help families understand CA school requirements including how to follow up with conditional admitted students. California- licensed MDs and DOs can register to issue and manage medical exemptions on the [CAIR Medical Exemption web site](#).

Immunization Registry Now Required!

AB 1797 requires California providers to enter immunizations they administer as well as a patient's race and ethnicity into a California immunization registry (CAIR or Healthy Futures/RIDE). [Enroll in CAIR](#) today! To learn more, see the [AB 1797 FAQs](#).

COVID-19

As of 9/11/23, bivalent mRNA COVID-19 vaccines are no longer authorized in the United States. The updated monovalent 2023-2024 COVID-19 vaccines are formulated to closely target currently circulating variants and provide better protection against serious consequences of COVID-19. The CDC recommends individuals 6 months and older receive an updated vaccine. Please see the new schedule [here](#) and the new product guide [here](#). As the vaccine is now commercialized, it is recommended providers recommend and offer the updated COVID-19 vaccine to protect their patients. Uninsured and under-insured (insurance does not include coverage for vaccines or only select vaccines) adults are eligible to receive the vaccine at no cost through the [Bridge Access Program](#) and children are eligible through the [Vaccines for Children Program](#). They can visit myturn.ca.gov or vaccines.gov to find a clinic location. Visit our [site](#) for more information.

FLU RECOMMENDATIONS

Routine annual influenza vaccination of all persons aged ≥ 6 months who do not have contraindications is recommended. For most persons who need only 1 dose of influenza vaccine for the season, vaccination should ideally be offered during September or October. However, vaccination should continue after October and throughout the influenza season as long as influenza viruses are circulating, and unexpired vaccine is available. Please see Sacramento County Flu Clinics listed below.

The latest Advisory Committee on Immunization Practices (ACIP) updates can be found [here](#).

SACRAMENTO COUNTY PUBLIC HEALTH IMMUNIZATION ASSISTANCE PROGRAM

Public Health Guidance for Schools and Child Care Providers, 2023-2024 is linked [here](#).

Sacramento County Immunization Assistance Program staff continue to host additional immunization clinics for eligible individuals through 18 years old. Please email immunize@saccounty.gov or call Sacramento County Immunization Assistance Program at (916) 875- 7468 with any immunization related questions.
