

Sacramento County
Department of Health and Human Services - Emergency Medical Services Agency (SCEMSA)
Joint Medical Advisory (MAC)/Operational Advisory (OAC) Committees

9616 Micron Ave. Suite 960
 Sacramento, CA. 95827

December 9, 2021

Facilitator: Hernando Garzon, M.D. SCEMSA Medical Director
 David Magnino, EMS Administrator
Scribe: Kristin Bianco, EMS Specialist II

Meeting Attendees: Attendees not captured from Zoom meeting.

March 10, 2022 Meeting Agenda can be located at:

Welcome and Introductions: 9:00 am	Room introductions are noted in the attendee list.	
Public Comments: None	None	
Agenda Review: Approval of Minutes-June 10, 2021	Motion to approve: Dave Buettner & Brian Pedro	
Chairman's Report: APOT Report Core Measures Report QI Report	APOT: <ul style="list-style-type: none"> • Sacramento County is one of the 8th highest APOT in the state. • Significant rise in APOT times in August, with a slight improvement in September, October, and November. • APOT times are shown by the hospital for November. • In the APOT 3, anything over a 20 minute wall time starts to get added cumulatively. 	Graphs attached to minutes

- Some hospitals have more cumulative excess hours, possibly due to the higher EMS volume.
- The Cost to EMS for excess hours due to APOT times has been added to present at MAC/OAC. The rate used to determine the cost to EMS providers is an agreed-upon rate between all California LEMSA's and is also used by EMSA. It is the same rate used when units are sent out on mutual aid assignments. The cost in November 2021 was \$465,001.88.
- Sac Metro/Sac City shared the graph created by them to show the APOT times in comparison to the response times. As the APOTS go up, the response times go up.
- Dr. Garzon will be taking this information from Sac Metro/Sac City to the executive leadership to show how APOT times directly impact EMS response.
- D. Buettner is requesting the information in the Sac Metro/Sac City graphs be expanded to show the other providers in Sacramento County and to include Code 2 responses.
- D. Buettner requested the county look at calls that are dispatched as Code 2 and transported C-3 to be brought to the executive leadership as well.
- EMSA data is presented showing APOT's by County.

Core Measures:

- Response time graphs from July 2021 – September 2021 show the time the 911 call was answered to the time crews arrived on scene.
- Response time graphs from July 2021 – September 2021 showing from the time the unit was notified to the time the unit arrived on scene.
- Psychiatric holds per hospital are presented.
- Medical holds per hospital are presented.
- Advisory Status is now separated into two different tables showing hospitals that went on Internal Disaster.
- SCEMSA Imposed Diversion to help alleviate APOT times are shown from August 2021 – November 2021.
- Diversion hours per month/hospital are shown for overcrowding from December 2020 – November 2021.
- Internal Disaster Hours per Hospital from December 2020 – November 2021 are shown.
- IFT totals per hospital are shown from July 2021 – September 2021.
- IFT's with the primary impression of Trauma are shown from July 2021 – September 2021.
- IFT's with the primary impression of STEMI are shown from July 2021 – September 2021.
- IFT's with the primary impression of Stroke are shown from July 2021 – September 2021.

Graphs Attached in Minutes.

	<ul style="list-style-type: none"> • An Overview of 911 Response, Primary Impressions, AMA/Released at Scene is presented. <p>Pediatric:</p> <ul style="list-style-type: none"> • Total IFT's Patients <15 years old are shown from July 2021 –September 2021. • Number of 911 responses (despite outcome) per patient <15 are shown from July 2021 – September 2021. (Total Count: 1698). • Distribution of Scene Pediatric Patients to ED from July 2021 – November 2021. (Total transports: 772). • Top 25 Primary Impressions Pediatric Patient to ED from July 2021 – November 2021. <p>STEMI:</p> <ul style="list-style-type: none"> • Distribution of Treated & Transported Patients with Primary Impression of STEMI/Chest Pain Suspect Cardiac from July 2021 – November 2021. • STEMI Core Measures from July 2021 – November 2021. • UC Davis is working on a STEMI improvement project. Information will be discussed at TAG. • Time to ECG is in the 90th percentile with some room for improvement. • 138 STEMI activations were made in the 3rd quarter. <p>Cardiac Arrest:</p> <ul style="list-style-type: none"> • CARES Utstein Report – Sacramento vs. National Presumed Cardiac Cares Cases from July 2021 – November 2021. • Total numbers for the system is presented for Cardiac Arrest cases. <p>Stroke:</p> <ul style="list-style-type: none"> • The Stroke Measures presented as showing that documentation is improving. • The STEMI/Stroke dashboard is presented, showing system totals for each. • The destinations for the primary impression of Stroke are shown by the hospital. • 830 Stroke activations were made in the 3rd quarter. • UC Davis data shows that only half of the Stroke Alerts made are actual strokes. • As Stroke Scales improve and more education in correctly diagnosing Strokes in the field the hope is improper Stroke Alerts will diminish. <p>Trauma:</p> <ul style="list-style-type: none"> • Transported patient with a Primary Impression of Trauma from July 2021 – November 2021. • Scene Time for Patients with +TTC from July 2021 – November 2021. • Trauma/Hypoglycemia/Pediatric Dashboard from July 2021 – November 2021 is presented. 	<p>Graphs Attached to Minutes.</p> <p>Graphs Attached to Minutes.</p> <p>Graphs Attached to Minutes.</p> <p>Graphs Attached to Minutes.</p> <p>Graphs Attached to Minutes.</p>

	<p>automatic request to your congressional leaders to request a congressional hearing on the workforce shortage.</p> <ul style="list-style-type: none"> • Kristin Bianco: If any provider is experiencing a workforce shortage and cannot provide ALS services 24/7, please notify SCEMSA as soon as possible. SCEMSA will place companies on our website that are currently hiring. • Dr Garzon: All healthcare is suffering from workforce shortages. 1/5 of health care workers have left their jobs since the COVID pandemic has started. 	
Adjournment:	Adjournment: 12:00 PM	

Next MAC/OAC Meeting: March 10, 2022

APOT 1, 2 & 3 - ROLLING 12 MONTHS / SYSTEM

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184-20(\text{APOT benchmark}) = 164\text{min}$. Then $164/60 = 2.73\text{hrs}$*

APOT 1 - 90th Percentile

APOT 2 - Per Month

Excess Hours per Month - System / Rolling 12 Months

APOT 1, 2 & 3 - ROLLING 12 MONTHS / KAISER NORTH

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184-20$ (APOT benchmark) = 164min. Then $164/60 = 2.73$ hrs*

APOT 1, 2 & 3 - ROLLING 12 MONTHS / KAISER ROSEVILLE

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184-20$ (APOT benchmark) = 164min. Then $164/60 = 2.73$ hrs*

APOT 1, 2 & 3 - ROLLING 12 MONTHS / KAISER SOUTH

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184-20(\text{APOT benchmark}) = 164\text{min}$. Then $164/60 = 2.73\text{hrs}$*

APOT 1, 2 & 3 - ROLLING 12 MONTHS / MERCY GENERAL

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184-20(\text{APOT benchmark}) = 164\text{min}$. Then $164/60 = 2.73\text{hrs}$*

APOT 1, 2 & 3 - ROLLING 12 MONTHS / MERCY OF FOLSOM

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184 - 20(\text{APOT benchmark}) = 164\text{min}$. Then $164/60 = 2.73\text{hrs}$*

APOT 1, 2 & 3 - ROLLING 12 MONTHS / MERCY SAN JUAN

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184-20$ (APOT benchmark) = 164min. Then $164/60 = 2.73$ hrs*

APOT 1 - 90th Percentile

APOT 2 - Per Month

APOT -3 /Excess Hours per Month

APOT 3 - ROLLING 12 MONTHS / MERCY METHODIST

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184-20$ (APOT benchmark) = 164min. Then $164/60 = 2.73$ hrs*

APOT 1 - 90th Percentile

APOT 2 - Per Month

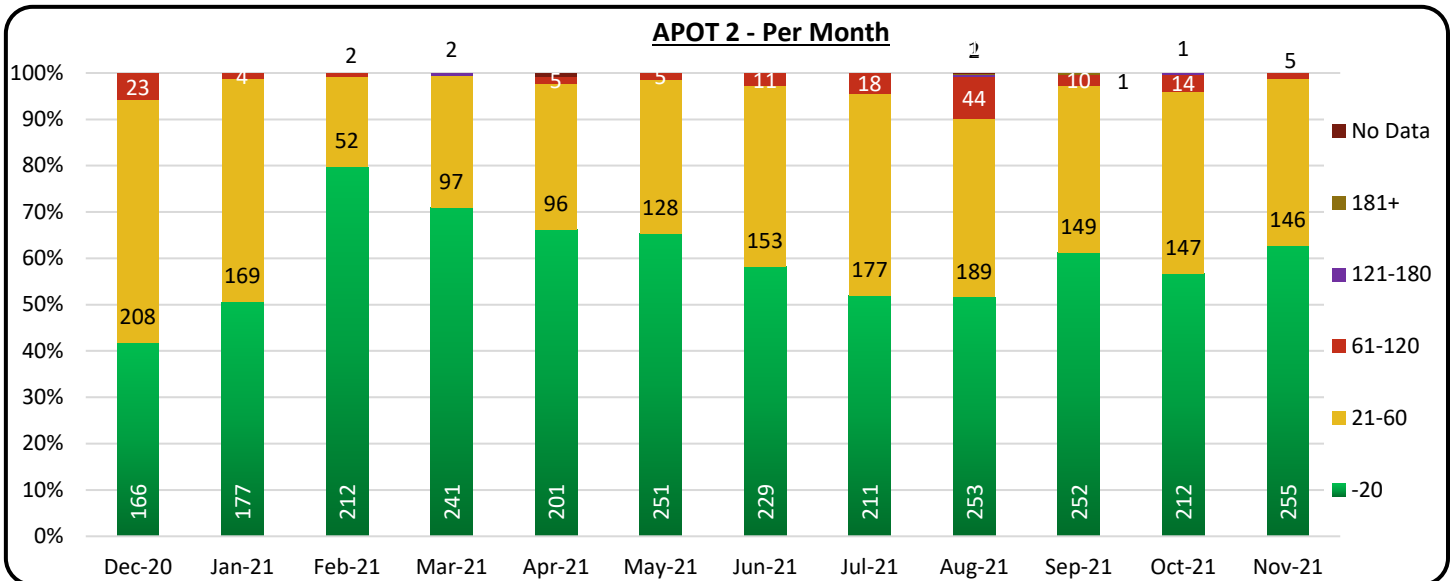

APOT -3 / Excess Hours per Month

APOT 1, 2 & 3 - ROLLING 12 MONTHS / SUTTER ROSEVILLE

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184 - 20(\text{APOT benchmark}) = 164\text{min}$. Then $164/60 = 2.73\text{hrs}$*

APOT 1, 2 & 3 - ROLLING 12 MONTHS / SUTTER SACRAMENTO

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184 - 20(\text{APOT benchmark}) = 164\text{min}$. Then $164/60 = 2.73\text{hrs}$*

APOT 1 - 90th Percentile

APOT 2 - Per Month

APOT -3 / Excess Hours per Month

APOT 1, 2 & 3 - ROLLING 12 MONTHS / UC DAVIS

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184 - 20(\text{APOT benchmark}) = 164\text{min}$. Then $164 / 60 = 2.73\text{hrs}$*

APOT 1, 2 & 3 - ROLLING 12 MONTHS / VA

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-2** is the percentage of patients whose care is transferred from EMS to hospital staff by designated time frames (see graph key for time ranges). **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184 - 20(\text{APOT benchmark}) = 164\text{min}$. Then $164/60 = 2.73\text{hrs}$*

APOT 1 Per Hospital & APOT 3 per Provider Agency and Hospital November - 2021

APOT-1 represents the time (in minutes) under which 90% of patients have their care transferred from EMS to hospital staff. **APOT-3** Represents the excess time (in hours) over 20 min aggregate of patient transferred from EMS to hospital per month. Illustrated is the System Total Excess hours per month. *Example: if APOT in min is 184min then $184-20(\text{APOT benchmark}) = 164\text{min}$. Then $164/60 = 2.73\text{hrs}$*

APOT Table - November 2021

Key: Green Low /Best / Red Highest
