It can be said that the motion was hasty that resources to do the project was not considered. Also, that there is new information in that an executive summary has been completed which is much more accessible and easy to understand for youth. Also there’s a youth friendly powerpoint and presentation done for the BHS Advisory board available for any youth to use, changing the need for doing a youth friendly report. These are the grounds for reconsidering the motion. • Member Arneill moved to reconsider the motion to write a youth-friendly version of the School-based mental health report.
