

External Quality Review Organization (EQRO)

Focus Group Participants Needed

EQRO will be visiting Sacramento County Mental Health Plan (MHP) from July 26, 2016 through July 28, 2016. We are seeking a group of diverse adult consumers who have received services from the MHP within the past twelve months to share their opinions and experiences about the quality of service. This is an important aspect of the review, so consumer participation is vital. Consumers from different providers and levels of service are encouraged to participate. Interpreters will be provided to assist those who are monolingual or have limited English proficiency.*
