IV. Announcements	<p>Lori Miller, SC member: As a follow-up to the announcement last month, Behavioral Health Substance Use Prevention and Treatment (SUPT) is partnering with Sacramento County District Attorney's Office on an anti-fentanyl campaign, called 1PillCanKill. It takes only 2 grams of fentanyl to kill, and 97% of the counterfeit pills entering Sacramento contain it. The pills in Sacramento containing fentanyl are fakes of Adderall, Percocet, Xanax, and Oxycontin. SUPT has supplies of Narcan, an anti-overdose drug, for service providers and individuals who need it. Please share information about this with friends and family, especially teens.</p> <p>Koby Rodriguez, SC member: Thank you. I would also add that many service providers are currently distributing fentanyl test strips.</p> <p>Christopher Williams, SC member: The most recent ten-year Student Mental Health and Wellness Plan for Sacramento County expired in 2020. The creation of a new plan was delayed by COVID-19. We are launching a writing and stakeholder engagement process for a new plan on Tuesday, November 30, 2021, from 4-5 pm. Everyone is invited. See Attachment A – Student Mental Health and Wellness planning process flyer.</p> <p>Koby Rodriguez, SC member: It is Trans Awareness Week. And to the people from ONTRACK, Lilyane Glamben and Madalynn Rucker and the rest of the team, thank you so much for creating the movement and the very positive direction. I appreciate your work.</p>

	<p>and requires you in your Three-Year Plans to include funds to those severely mental ill people who are headed into or coming out of our jails. Your priorities ignore this provision, even though jails and prisons are where the most sick people tend to go and are the worst possible places for them to end up. The mental hospitals have lost beds and prisons have filed up. You are out of compliance with statute, there is no excuse for it, and please stop.</p> <p><i>5813.5 (f) Each county plan and annual update pursuant to Section 5847 shall consider ways to provide services similar to those established pursuant to the Mentally Ill Offender Crime Reduction Grant Program. Funds shall not be used to pay for persons incarcerated in state prison. Funds may be used to provide services to persons who are participating in a presentencing or postsentencing diversion program or who are on parole, probation, postrelease community supervisory, or mandatory supervision. When included in county plans pursuant to Section 5847, funds may be used for the provision of mental health services under Sections 5347 and 5348 in counties that elect to participate in the Assisted Outpatient Treatment Demonstration Project Act of 2002 (Article 9 (commencing with Section 5345) of Chapter 2 of Part 1).</i></p> <p>Lilyane Glamben, ONTRACK Program Resources: Thank you, Ms. Leslie, for your acknowledgement. At the Black Mental Health & Criminal "Justice" Real Talk, the presentations and panelists were amazing. Ryan McClinton was the one panelist on both panels, the first panelist the first day and the last on the second day. I could not imagine doing it without him. I also want to thank and acknowledge County BHS staff. There will be more – this was just the beginning.</p>
