Hospital Unit

Police Social Services Units Mission:

Social Service Units (MHU, Impact, Hospitals) strive for long term and meaningful results through a blended model of enforcement and social services to create impactful results throughout the community.

Our blended approach of enforcement and social services recognizes that not all individuals are ready for services but by building relationships and trust with individuals it will lead to increased acceptance of services and long lasting change.

Social services are essential in law enforcement with the many changes in the criminal justice system and legislation that have directly impacted communities.

Range Of Services

Top Call Types Related to Methamphetamine

Disturbance	Welfare Check	Disturbance - Family	Narcotics in Progress	Suspicious Person Activity
Domestic Violence	Advised Entry	Mental Person	Medical Aid	Missing Person - At Risk
Suspicious Occupied Vehicle	Subject Stop	Traffic Stop	Missing Person Report Found Property	Suspicious Activity Report

What we know:

- 911 is the number one crisis line
- Methamphetamine is a crisis issue for Law Enforcement
- Wide spectrum of individuals and communities impacted
- Access to services is limited and difficult for LE to engage
- One stop full range HUB locations are essential for LE to best serve community
- Warm hand off from LE to provider
- Open exchange of information between LE and provider crucial for long term success
- Collaboration and multi-disciplinary case management is successful
