

FUTURE
FORWARD //

MARIJUANA
IS NOT FOR ME

FUTURE FORWARD

Using marijuana could cause long-term damage to developing teen brains and limit success in school.

DID YOU KNOW?

- ★ 1 in 6 teens that begin using marijuana can become addicted
- ★ If you are not 21 years or older, the purchase and recreational use of marijuana is illegal
- ★ Marijuana affects the brain—altering memory, judgment, and motor skills
- ★ Parents who talk with their kids about not using marijuana have teens who are less likely to use marijuana
- ★ Parents, YOU are the most powerful influence on your child's behavior. Start the conversation today!
