

HEALTHY PARTNERS DASHBOARD
Report Date: 2/9/16

Testimonials

- Disbelief that there is no cost to primary care
- Word of mouth referrals from family and friends continues to be a strong referral source.
- HP Identification Card provides legitimacy to their establishment with a primary care medical home.
- Relief that medications for diabetes do not require patient out of pocket expense. These are expensive and have been a tremendous financial strain on limited resources.
- Many enrollees reported years of disconnection from the health care field due to fear, discrimination and cost.

Program Information

- Formal start date was January 4, 2016. Some individuals were enrolled in late December 2015.
- Other data will be added to future dashboard including demographics.
